

Tricel Environmental Solutions a leader in manufacturing domestic and commercial sewage treatment systems and septic tanks, are pleased to announce a new nationwide distribution agreement with the Grafton Group. This agreement enables customer's wider access to Tricel products throughout the UK.

Grafton Group plc has strong national and regional market positions in Britain and Ireland. Grafton's turnover is over €2bn and employees 9,800 people.

Grafton operates 522 builders and plumbers merchanting branches. It trades under the Buildbase, Plumbase, Jackson and Selco brands in Britain and under the Heiton Buckley, Chadwicks and Macnaughton Blair brands in Ireland. These brands have leading national and regional market positions.

In Britain, Grafton operates the third largest builders merchanting business and is among the top five plumbers merchanting businesses.

The network of merchanting branches mainly supply trade customers engaged in residential construction, repair, maintenance and improvement projects.

We are confident the Grafton Group will provide an excellent service, knowledge and service to customers of the Tricel Sewage Treatment Systems and Septic Tanks.
